

SAFE TOMORROWS
SAFE HOUSE *for* WOMEN CAPITAL CAMPAIGN

The Safe Tomorrows Capital Campaign will provide the funds necessary to construct a new crisis shelter for women and their children who have experienced domestic and sexual violence in our community. Our existing shelter is housed in an aging residential building. We are often at capacity and must make other arrangements for clients when we are full, when the client has mobility challenges, or when the client has teenage sons.

Help us ensure that we can offer safe shelter to everyone who needs it in Cape Girardeau!
